

# Do you think logical thinking is a fundamental foundation for developing all of other skills?

- You might hear about Logical Thinking, but do you truly understand what logic means and how to logically think and communicate?
- When you present the report, your superior often does not understand what you want to say, and take a lots of time to ask you questions and report to be revised many times?
- When solving problem, you don't know where to start, how to find out the root causes, or the solution you suggested is not approved because of lacking the basic logic?

By improving your logical thinking, you cut down 10 minutes of ineffective communication with your superior each day, then you can save more than 2000 hours per year. In addition, we believe logical thinking is a basic foundation for you to improve your capacity and your skill further.

## BASIC LOGICAL THINKING (2 DAYS)

★ Arranging your thinking logically for more effective problem solving and communication ★
